

Dear Parents,

The Edge in Standardized Testing, a professional tutoring agency specializing in PSAT, SAT and ACT preparation, has created a program tailored for your children. *The program focuses on the skills and strategies necessary to excel on all standardized tests, including the PSAT, the SAT and the ACT.* Administration, therefore, encourages your children to participate in this excellent opportunity.

Through informative instruction, guided practice, specialized lesson plans and an expertly defined curriculum, the program will propel students to succeed on standardized tests.

Therefore, your children will greatly increase their possibilities of becoming National Merit Finalists or Commended Scholars. They will also enhance their chances of being accepted into and receiving scholarships from the colleges of their choice.

While freshmen still have plenty of time before these tests actually count, studies have proven that long-term preparation is the best strategy to maximize your testing scores. *So, The Edge has created a stepping-stone program where a foundation of skills and strategies is built and mastered freshman year.* During sophomore year, those skills and strategies are extended and applied within more difficult parameters.

The program will cover all sections relevant to standardized tests. Last year, the program was taught to over four hundred students at STA. *Emerging from this group were several perfect scores and an incredible average level of improvement - over 150 points on the SAT and over 5 points on the composite score of the ACT.*

The program will consist of one class per week for 12 weeks. The classes will be held on the same day and at the same time each week. If students have to miss school, they can participate virtually upon request. Afternoon classes will start at 2:45 and end at 4:05; morning classes will start at 6:40 and end at 8:00. The dates of each program are listed below. The cost of the program is \$400.
